The following are examples of activities that are eligible for funding under the GPOBA Call of Proposals with DGIS Funding for improving the access of water and sanitation services to poor households:

1. Analysis of the suitability or feasibility of designing an OBA/RBF project
2. Analysis on how to address any of the OBA core concepts/features
3. Sector diagnostic and strategy to incorporate OBA/RBF projects/schemes
4. Regulatory framework to adopt OBA/RBF schemes
5. Identification of targeting for an OBA project
6. Implementation arrangements to implement an OBA/RBF scheme
7. Identification of sector demand, infrastructure needs and financing gap to implement an OBA/RBF scheme
8. Sectoral stakeholders assessment to implement an OBA project
9. Demand studies and ability and willingness to pay from the target or potential beneficiaries
10. Strengthening Monitoring and Evaluation system, including independent verification arrangements for an OBA/RBF scheme
11. Economic and financial analysis of a sample of projects to define unit costs of an OBA/RBF project
12. Assessment of the governmental subsidy or fiscal transfer program to design an OBA/RBF scheme
13. Assessment of sector financing to propose an OBA/RBF scheme
14. Potential for Public-Private Partnerships in the sector to implement an OBA/RBF scheme
15. Development an Operation and Maintenance (O&M) strategy for funds recovery under an OBA approach
